

**MedAustron International GmbH** is a subsidiary of EBG MedAustron GmbH and realizes international technology projects in the course of the construction of a new particle accelerator in the rapidly growing medical technology sector. The parent company EBG MedAustron operates one of the most modern centers for ion therapy and research in Europe.

**Become part of our team as**

## Working Student Technical Documentation (f/m/x)

**Part-time (20 hours / week)**

**Challenges** you conquer:

- Creation of Service Documentation for our particle therapy accelerator together with our project lead
- Collect materials (texts, pictures, etc.) from experts and service engineers
- Prepare delivered content for the transfer to our content management system
- Transfer & edit documents in the system
- Document installation and maintenance of new components for our therapy accelerator
- Perform content management system maintenance tasks under supervision of our project lead

**A background** that impresses:

- Ongoing academic studies (preferable: Masters degree) in a technical field

- A diploma from a technical secondary school (HTL) or a degree (Bachelor)
- Experience with content management systems is an advantage
- Ideally first demonstrated experiences in a similar field
- Very good knowledge of German and good knowledge of English (written and spoken)
- Hands on mentality and communicative personality

**A unique offer** that inspires:

For the advertised position we offer a gross annual salary from € 30.125,34 (on a full-time basis) based on the classification in use group 2 of the collective agreement for white-collar workers in the metal industry, with the possibility of overpayment, depending on professional qualifications and experience.
