

Who we are:

EBG MedAustron GmbH in Wiener Neustadt operates one of the most modern centers for particle therapy and research in Europe. Cancer patients are treated with an innovative form of radiation therapy with protons and carbon ions. In addition to cancer treatment the facility is also used for translational research.

We offer an exciting challenge in a unique and highly innovative project. Work with us to establish MedAustron as one of the leading particle therapy centers.

Share our spirit and become part of our Radiation Oncology team as an
